*Typhoon Ondoy really ruined Metro-Manila and many provinces here in the Philippines, everything flooded, mud flowing, waters overflowing from 6 dams, billions of dollars in damage, lost lives, houses, agriculture, and businesses. Really it’s the first time I witness this devastating storm, strong winds, high level waters throughout Metro-Manila and provinces, can you imagine houses or buildings of three to four stories where you can only see the rooftop, you can see were the people stayed on rooftops for two days. People without food for days, people crying, praying, asking mercy to our almighty God.”*
